

Ring sizer

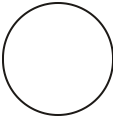

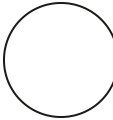

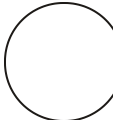

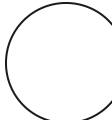

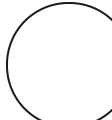

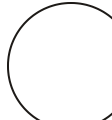

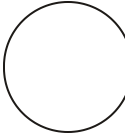

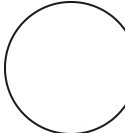

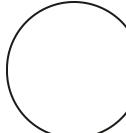

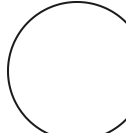

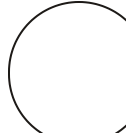

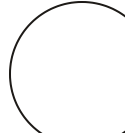

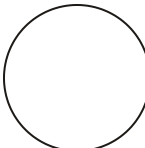

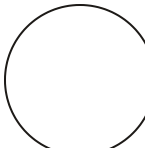

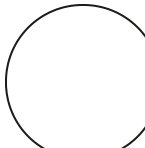

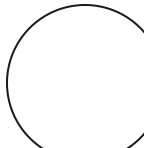

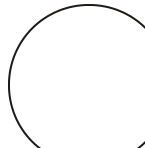

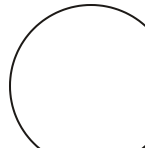

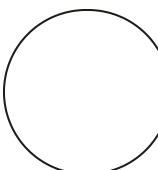

Print at 100 % (actual size, no “fit to page”). Then check this line measures exactly 50 mm with a ruler:

50 mm. If it doesn't, change your printer settings and print again.

1. Use a ring she already wears

Lay the ring on the circles. The right size is the circle that sits exactly inside the ring's inner edge. Between two sizes, choose the larger.

 UK H US 4 · 14.9 mm	 UK I US 4.5 · 15.3 mm	 UK J US 5 · 15.7 mm	 UK K US 5.5 · 16.1 mm	 UK L US 6 · 16.5 mm	 UK M US 6.5 · 16.9 mm
 UK N US 7 · 17.3 mm	 UK O US 7.5 · 17.7 mm	 UK P US 8 · 18.1 mm	 UK Q US 8.5 · 18.5 mm	 UK R US 9 · 18.9 mm	 UK S US 9.5 · 19.3 mm
 UK T US 10 · 19.7 mm	 UK U US 10.5 · 20.1 mm	 UK V US 11 · 20.5 mm	 UK W US 11.5 · 20.9 mm	 UK X US 12 · 21.3 mm	 UK Y US 12.5 · 21.7 mm
 UK Z US 13 · 22.1 mm					

2. Or measure a finger

Cut out the strip and the slit at the left. Wrap it round the base of the finger, feed the end through the slit, and pull until it sits snugly but slides over the knuckle. Read the size at the slit.

Fingers are bigger when warm and in the evening. For bands 6 mm or wider, go up half a size. We resize for life.
